DISINFECTION SERVICE

SWINE FLU DISINFECTION

Microorganisms like bacteria, virus (including Swine Flu Virus), fungus, and yeasts are found all around us, even inside us. They are found in the air we breathe, the water we drink, the food we eat and everything we touch. Most of these “germs” are harmless, while others carry the most threatening diseases to man and his environment.

Sterling PCS Disinfection Service designed is to safely and effectively eliminate all microorganisms and provide a sanitized environment for working and living. Sterling Disinfection Service is offered to protect Hospitals, Malls, Airports, Universities, Prayer grounds & buildings, Schools, Kindergartens, and Child Care Centers, Food factories, Catering & Restaurants, Public Areas, Changing Rooms and Personnel Washrooms as well as your Home, Kitchen and all other sensitive areas from all kinds of germs. Sterling PCS Disinfection Services may be regularly applied. It has been proven to prevent cross-contamination in food preparing areas and to control several dangerous pathogens.

STERLING PCS – SOLUTION

STERLING PCS DISINFECTION SERVICE WILL ELIMINATE 99.999% OF ALL MICRO-ORGANISMS

- ✓ Control of all types of gram positive, gram negative bacteria, control of virus and control of fungi
- ✓ Satisfaction Guaranteed

STERLING PCS DISINFECTION SERVICE - SAFETY WITH STRENGTH

- ✓ Safe, non-irritant, non-corrosive, and presents no hazards
- ✓ Active against wide range of contaminating organisms like bacteria, virus and fungi
- ✓ Posses extra germicidal action because treatment chemicals consist of judicious blend of ingredients, possessing broad-spectrum anti-microbial activity, but nonhazardous to end-users with high efficacy in microbial control of premises.
- ✓ Whole operation can be completed within 6 to 7 hours, thus ensuring low shut down time
- ✓ Odorless unlike the conventional method of fumigation by formaldehyde
